HITACHI BROADCAST

SK91 – Producing the shots that count

Hitachi's SK91 Broadcast ENG/EFP camera is now available with either Digital Command Unit (DCU), for use with coaxial cable up to 1km, or triaxial cable adaptors for use up to 2km.

- Three video (analogue), two audio (analogue) and twenty-two control (digital) signals are multiplexed in the DCU. Full talkback facilities available.
- Genlock input and controls at the DCU.
- FM transmission guarantees excellent signal quality and signal/noise ratio.
- Automatic cable length compensation.
- Automatic protection circuit fitted for accidental disconnection of cable.
- Only 2.5Kg added to the camera weight (4.4Kg) when in triax mode.
