P.809	—
P.811	—
P.812	—
P.816	5820
P.817	6474

## VIDICONS

E.E.V. Image Orthicons are used by the majority of television broadcasting countries in the world. The exclusive British types give improved definition of black/white edges, less background noise and improved rendition of grey tones. E.E.V. Vidicons are equivalent to and interchangeable with American types and are extensively used for industrial applications and television film scanning.

E.E.V. type	American equivalent	Application
P.810	6198	Industrial use
P.813	6326	Film pick-up
